

BOARDWALK

## **KEGEL**NAVIGATION PATTERNS

## SPORT SERIES

### BOARDWALK 2435

Based upon the 2000 PBA Indianapolis Open pattern which was created by Kegel, this pattern is designed to play towards the edge board. Because of the relatively short 35 foot length of the BOARDWALK, players will need to control the excessive change of direction of the bowling ball as it enters the 25 feet of dry backend. Since have lanes do many topographical differences, on some lanes the BOARDWALK will require a more direct route to the pocket while other lane characteristics may allow players to swing the ball to the edge board. Like all wooden walkways, this pattern can provide great excitement but stray too far off the BOARDWALK and you'll find yourself in the moat!

#### Latitude Ratio Coordinates

22' 2.4 to 1 33' 2.1 to 1

#### Longitude Ratio Coordinates

Outside Taper 2.5 to 1 Inside Taper 2.3 to 1

#### **Pattern Distance**

35 Feet

#### **Pattern Volume**

Forward 10.55 mL Reverse 13.35 mL Total 23.90 mL

## SPORT SERIES

### Latitude Ratio Coordinates

22' 2.4 to 1 33' 2.1 to 1

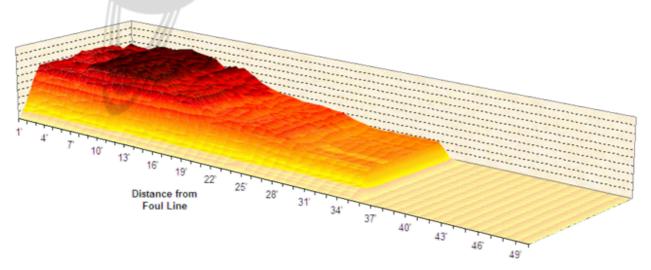

The 2D chart on the left was generated by Lane Monitor showing select tapes and ratios at key distances throughout the pattern. USBC Sport Bowling ratios are calculated at 22' and 2' before the end of the pattern. All Latitude Ratio Coordinates are calculated from these two distances.

Latitude ratios in the last half of the pattern can be an indicator of the difficulty of a pattern. Generally, the lower the ratios down lane, the more difficult the pattern.

### Longitude Ratio Coordinates

Outside Taper 2.5 to 1 Inside Taper 2.3 to 1

The 3D chart below was generated by taking tapes every foot of the pattern. This gives a visual of how the conditioner tapers off from the front to the end of the pattern.
